

THE ATTORNEY GENERAL has ruled that women may register through Friday, July 12. County Tax Collector Oliver advises them to register TO-DAY. Where there is room for doubt, there is no room for hesitation. The July primaries will determine the course of events in Texas. If Ferguson is given a majority, Ferguson will fight to the bitter end. If Ferguson fights, impediments will be placed in the way of law and order. If you are a mother, wife, sister or sweetheart, you are interested in the protection of soldiers and boys. You hardly want to see a return of the red lights, of liquor and secret interference. You hardly want to see the Constitution brought into disrepute. You hardly want to see men in authority who disagree with President Wilson and Secretary Baker. Most of all, you do not want to see this fearful struggle in which we are engaged brought to an inglorious close; and you know that the way to attain mastery over the Hun is to uphold the Government in all matters, even when you are conscious of personal misgivings over the wisdom of particular measures. You know that divided allegiance is impossible; that the pro-German is not supporting Ferguson for Ferguson's sake. You know that Ferguson was tried by a jury, after he had played fast and loose with the confidence and cash of the people, that he was found guilty and thrown out of the capitol. You know, if events had pursued their normal course, that Ferguson would be where any common offender belongs instead of out among the voters of this great State, seeking vindication. As a woman, you owe Texas the tribute of suffrage; the service of the ballot. Your responsibility is sure before God and man; and if you fail to do the part assigned you, you then prove, beyond peradventure, the contention of those men who opposed the ratification of a right that should have been yours in the beginning.

INTEREST SHIFTS TO ALBANIA FRONT WHEN ALLIES GAIN

World Watches and Waits While Contending Armies Prepare for Expected Offensive and Commanders Maneuver for Position

BY THE ASSOCIATED PRESS.

For the moment the eyes of the allied world are turned away from the battle front in France, where the Germans are believed to be preparing for a resumption of their offensive against the positions held by the soldiers of the entente nations. The most active area in the various theaters of the war is in Albania, where the French and Italians are vying for the initiative against the Austrians.

While it is not expected that far-reaching results will be brought about by the offensive in this section of the world, the movement has in it possibilities which seem interesting. The rapid progress made by the French and Italians, the probability that the Austro-Hungarian line to the east, past Lake Ohrida, may be outflanked and the possibility that an offensive may be launched along the Salonika front tend to give the events in Albania some importance at a time when the main battle area is quiet.

There have been indications recently that an offensive might be begun in Macedonia, if for no other reason than to draw Austrian and German troops from Italy and France.

It is reported that the Italians are now ready and that a powerful move might be made against the Austro-Hungarian line to the east, past Lake Ohrida, and that the French are also ready.

The Austro-Hungarian line to the east, past Lake Ohrida, may be outflanked and the possibility that an offensive may be launched along the Salonika front tend to give the events in Albania some importance at a time when the main battle area is quiet.
